

- ❖ **Make a Difference through Significant Research**
- ❖ **Work with Acclaimed and Productive Faculty**
- ❖ **Become a Leader in Education**

A PhD in Education prepares scholars to address the critical problems we face in education, teaching and learning.

Doctoral students at UD work alongside engaged faculty to develop research skills that are applicable to a broad array of careers in academia, business, government and nonprofit organizations.

Prior to completion of the degree, students receive broad-based analytic training--routinely publishing in academic journals and presenting papers at national and international conferences.

## **PhD in Education students specialize in 1 of 6 areas**

- Evaluation, Measurement and Statistics
- Learning Sciences
- Literacy Development and Learning Problems
- Mathematics Education
- School Psychology
- Sociocultural and Community-Based Approaches to Education

Typically, UD's PhD students are able to complete their degree within 4-5 years of full-time study.

Over the past 10 years, all full-time PhD students in Education have received financial assistance through assistantships or tuition scholarships.

## **School Psychology**

Students in this specialization are provided with a strong foundation in psychological theory and research and are prepared to use a collaborative, data-based problem solving approach when applying this foundation to help solve social, emotional, and academic problems faced by children, families, teachers, and schools. Students complete all requirements for the Educational Specialist degree simultaneously with the requirements for the PhD.

### **Faculty:**

- Dr. George Bear
- Dr. Marika Ginsburg-Block
- Dr. Kathleen Minke
- Dr. Kristen Ritchey
