

- ❖ Make a Difference through Significant Research
- ❖ Work with Acclaimed and Productive Faculty
- ❖ Become a Leader in Education

A PhD in Education prepares scholars to address the critical problems we face in education, teaching and learning.

Doctoral students at UD work alongside engaged faculty to develop research skills that are applicable to a broad array of careers in academia, business, government and nonprofit organizations.

Prior to completion of the degree, students receive broad-based analytic training--routinely publishing in academic journals and presenting papers at national and international conferences.

PhD in Education students specialize in 1 of 6 areas

- Evaluation, Measurement and Statistics
- Learning Sciences
- Literacy Development and Learning Problems
- Mathematics Education
- School Psychology
- Sociocultural and Community-Based Approaches to Education

Typically, UD's PhD students are able to complete their degree within 4-5 years of full-time study.

Over the past 10 years, all full-time PhD students in Education have received financial assistance through assistantships or tuition scholarships.

Evaluation, Measurement and Statistics

Students who select this specialization will be prepared to develop, critically evaluate, and properly use quantitative and mixed methodologies to advance educational research. Graduates are able to make fundamental contributions to educational methodology through study of a wide variety of research methods.

Faculty:

- Dr. Joan Buttram
- Dr. Liz Farley-Ripple
- Dr. Joe Glutting
- Dr. Allison Karpyn
- Dr. Henry May
- Dr. Ratna Nandakumar
