Study Away – The opportunity to study away from the Newark campus utilizing different course formats and practical experiences than traditionally found in courses.

EDUC 390 – Classroom Management for Social and Emotional Learning

This course focuses on the creation of positive learning environments by fostering children’s social and emotional development, infusing behavior supports in academic instruction, enhancing motivation for learning, and establishing well organized and respectful classrooms. Emphasis is placed on learning core concepts and practical research-based strategies.

We will partner with Richard A. Shields Elementary School in Lewes, Delaware to explore classroom management and school-wide discipline in action with teachers, students, and administrators. This course is scheduled each day between 8:00-4:00 and will include course time and field work in the school. A daily schedule will be provided prior to the start of class.
