Dear Clinical Educator,

Welcome to the University of Delaware’s student teaching program for ETE teacher candidates. We would like to take this opportunity to thank you for your invaluable contributions to our program. Research suggests that the greatest influence on the quality of a teacher candidate’s experience is the clinical educator. With your participation in the partnership, we are able to prepare our students to meet the challenges in today’s diverse classrooms. Your willingness to share your time and expertise is greatly appreciated.

All observation reports, evaluation forms, and reference materials may be found on our student teaching website at:

http://www.education.udel.edu/ete/student-teaching/

As a cooperating coteacher, you will be receiving electronic newsletters on a weekly basis. During key times throughout the experience, you will also be receiving e-mail messages from the Office of Clinical Studies (Linda Zankowsky and Kim Cavillio). If you feel that you would like to receive additional information and/or materials, please contact your UD field instructor. Contact information for all field instructors may be found on the website listed above.

Once again, please accept our sincere gratitude for your dedication and commitment to our students.

Sincerely,
UD Field Instructors
